

## **5 x**

<b>Equation</b>
<b><math>5 \times 1 = 5</math></b>
<b><math>5 \times 2 = 10</math></b>
<b><math>5 \times 3 = 15</math></b>
<b><math>5 \times 4 = 20</math></b>
<b><math>5 \times 5 = 25</math></b>
<b><math>5 \times 6 = 30</math></b>
<b><math>5 \times 7 = 35</math></b>
<b><math>5 \times 8 = 40</math></b>
<b><math>5 \times 9 = 45</math></b>
<b><math>5 \times 10 = 50</math></b>
<b><math>5 \times 11 = 55</math></b>
<b><math>5 \times 12 = 60</math></b>

### **Hint:**

**5 x any number , the number ends in 5 or 0**

**For odd numbers ends in 5 ( $3 \times 5 = 15$ )**

**For even numbers ends in 0 ( $4 \times 5 = 20$ )**
