HAVE YOU COMPLETED YOUR DATA CONFIRMATION?

Students will not be able to check out library books or use the chromebooks in the computer lab until this is complete. Thank you!

Data Confirmation Process:

Go to parent.rocklinusd.org
 If you have an account select "sign in" by using your email account and password.

 If you do not have an account select "create an account". You may need the student ID and Verification Code to create account. Aeries will send a confirmation email to you. Once you confirm, select return to login page. Now you may sign in and begin the data confirmation process.

Once signed into account:
 Select "Student Information" and choose Data Confirmation. It will guide you through the data confirmation process. You <u>do not</u> need to print any documents for the office. However, you must select finish/complete after each section. The last section is printing an emergency card (you may do this for your records – the school does not need this).

Please call the office at 916–632–0140 if you have questions.
